Home for the Mentally & Physically Challenged and less fortunate Children

Selvyn Roy

Clinical Psychologist / Administrator.

Dear Principal, Students of PRIMO LEVI HIGH SCHOOL,

Loads of love and thanks from Prema Vasam!

Prema Vasam is a home for the children. First of all a big thanks for your expression of love and concern from time to time and supporting us financially all the now and then. Though you are thousands of miles away, your financial support gives us the sense of being close with us, thanks for the concern towards us.

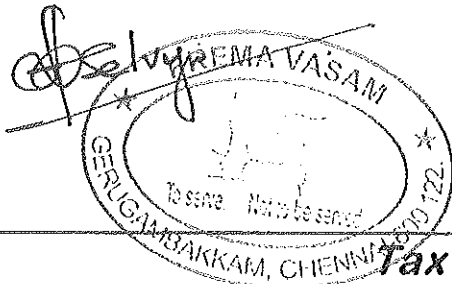

A good number of children are special needs children. Most of these special needs children are bed ridden. And the rest of the children are less fortunate school going children. For the special children we provide physiotherapy, occupational therapy and special education.

Of course a big thanks to our friends Paolo and Silvia for recommending our home to you for the support. Last year Paolo has visited our home and stayed with us for a few days and spent his lovely time with our loveable children.

We do not know how to comfort Manuel's parents who have lost their son in cancer. Though we are very sad to know about the sad demise of Manuel, in a way we feel proud of Manuel's parents for giving away the money to the desiring children.

Once again thank you very much indeed for your help and support for the children of Prema Vasam. And I promise you that our love and prayers would remain with you for your well being and for your dear and near ones. You are remembered with great gratitude for your help.

With many thanks
